

Loan Approval Analysis

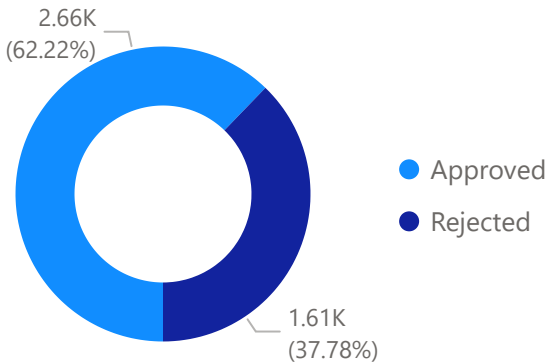

Overview of applications, approvals and key insights

Approved Loans	Rejected Loans	Average Credit Score
2656	1613	599.9

Loan Status by Education Level

Approval vs Rejection Rate

Key Findings

- 62.2% of loan applications were approved.
- The average credit score is approximately 600.
- Approval rates appear similar across education levels.
- Education level alone does not appear to strongly differentiate approval outcomes.

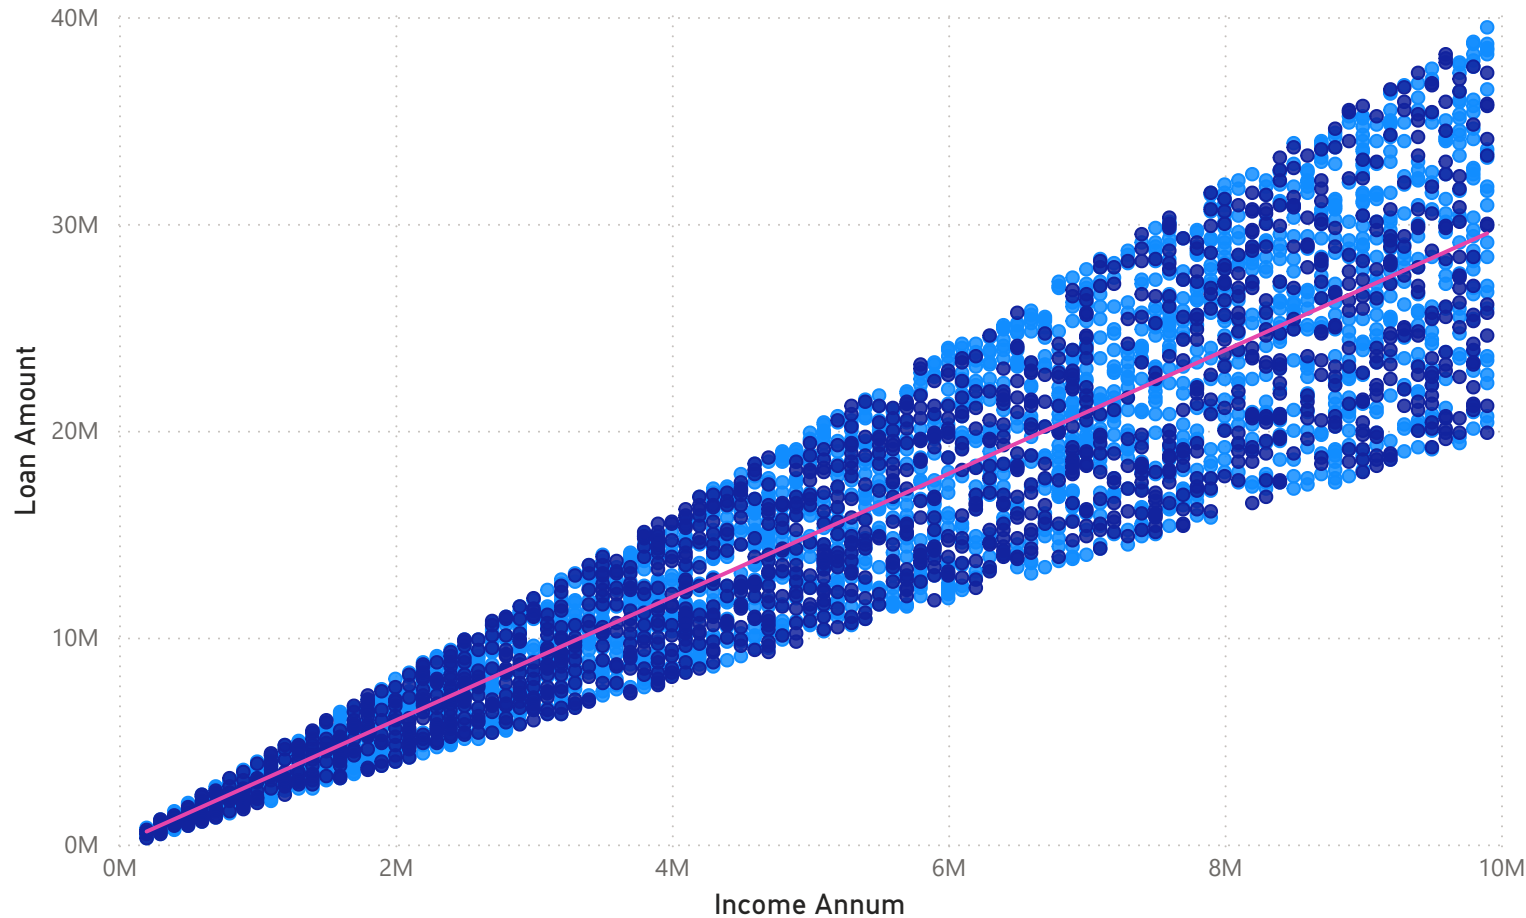

Dataset Summary

- 4,269 loan applications analyzed.
- Approval rate: 62.2%.
- Average credit score: 599.94.

Income vs Loan Amount

Income vs Loan Amount

Loan Status ● Approved ● Rejected

Observations

- Income and loan amount show a positive relationship.
- Approved and rejected loans appear mixed across the distribution.
- Income and loan amount alone do not clearly explain approval decisions.
- Additional variables should be explored to better understand approval outcomes.
